COME TO WORK FOR DAVE'S AUTOBODY IN GALESBURG, ILLINOIS

Modern Equipment and Facility

Not only is the working environment pleasant, the tools to do your job are the latest in technology. Most departments are air conditioned. The floors are all porcelain tile for comfort and appearance. We have several frame uni-body machines, as well as 3 down draft spray booths. We use the E.A.R.S. system

— a dual line air tool system that creates an extremely quiet working environment. Our office is equipped with 10 computer workstations with the latest hardware and software.

Health and Safety program

We use a complete shop air ventilation system (one of the few in North America) which ventilates the entire shop floor with fresh air. We do everything possible to make sure the working environment is very clean and safe. You'll receive regular safety instruction. Insurance plan includes medical, prescription, dental, and optical coverage.

Flexible hours

As long as we meet customer needs, flexible hours are available. We always strive to get the work done during the week, so your weekends can be spent at home. Most employees work a 4 day week and get a 3 day weekend.

Training

Most companies see training as a cost. We see it as an investment in you. Dave's is affiliated with Masters School of Autobody Management.

Low Turnover

Dave's Autobody maintains pleasant working conditions and has a low turnover in employees. You'll have consistency in your fellow workers and not be slowed down by continual training of new employees. Over half of our employees have been with us for 10 years or longer; fully one third have been here for over 15 years. We have 8 employees with around 25 years with us; our recent 20 year employees were treated to a trip to Hawaii for them and their spouses.

Positive Environment

You'll quickly discover that the work force is empowered at Dave's Autobody to make decisions, to implement changes and to participate in running the business. The people are friendly and the owners keep the lines of communication open. Dave's Autobody is the model for the world famous Liquid Amalgam management style.

Job Security

We're a solid, established company with steady work flow, low turn-over rate of employees, and liberal bonus programs. Dave's is the preferred shop for several new car dealers and most insurance companies.

Communication

The management does a quarterly review with each employee and pay is based on objective criteria of measurement. You will always know the score.

Quality Product

Dave's has high standards and produces only high-quality work. We are recognized as one of the top autobody businesses in the United States, as well as one of the few teaching facilities in the world. Hundreds of shop managers tour Dave's annually to see first hand how we do it.

Low Cost of Living

The Galesburg community is located in west-central Illinois and has a population of 30,000. The cost of living here is low, but the city offers many perks usually only found in much larger cities. Housing is affordable, and schools are among the best in the U.S.A.

Dave's Autobody is an equal opportunity employer.
